

Free Science Revision Resources? Yes please!

- ⇒ *Do you want to boost your science grades?*
- ⇒ *Do you want an absolute shed-load of free resources to help you prepare?*
- ⇒ *Do you want to know the best ways to revise science?*

If you answered YES to any of these questions, scan the QR code below with either your camera (iPhone customers only), Snapchat (iOS or Android) or with any other QR reader freely available from the app store to access.

“But phones are banned!” I hear you cry—Don’t worry! Your Science teachers will be giving you a paper copy of the QR code that you can take home with you to try and it will be on the school website.

If any of you **can’t access** the online resources for whatever reason, please see **Mr Davies** in **Lab 7**.
